BUSINESS REQUIREMENTS DOCUMENT (BRD)

Kathakali Gramam Ayroor Website

Version: 2.4
Date: 21 October 2026
Document Purpose: Internal project requirements and planning

---

1. Project Overview

1.1 Project Background

Kathakali Gramam Ayroor requires a modern, responsive website that presents the organization's identity, cultural activities, events, awards, institutions, galleries, and related information.

The website should communicate the organization's cultural heritage through a contemporary visual experience while ensuring that visitors can easily find information across desktop, tablet, and mobile devices.

The website must support both English and Malayalam.

1.2 Existing Website Reference

Current website: https://kathakaligramamayroor.com/home.php

The existing website should be reviewed to understand the organization's current content, navigation, visual identity, and available assets.

The review should identify:

- Content and pages that need to be retained.
- Information that requires updating or rewriting.
- Images and other assets that may be reused, subject to approval.
- Gaps in the current website's content and navigation.
- Opportunities to improve usability, accessibility, responsiveness, and presentation.

The existing website is a reference for understanding the current online presence. It is not the approved design for the new website.

1.3 Project Objectives

- Establish a professional online presence for Kathakali Gramam Ayroor.
- Present the organization's background, cultural activities, events, awards, and associated institutions.
- Organize information through a clear and intuitive website structure.
- Showcase Kathakali photographs, awards, and relevant media coverage.
- Display a YouTube Live Showcase on the homepage.
- Provide equivalent English and Malayalam browsing experiences.
- Deliver a responsive, accessible, and visually engaging website.
- Improve the discoverability of important information through clear navigation and page hierarchy.

2. Sitemap and Information Architecture

The following is the **proposed initial sitemap** based on the current project requirements and existing proposal. It must be reviewed against the content available on the existing website before the page structure is finalized.

No.	Page	Proposed Parent
1	Home	Main navigation
2	About Us	Main navigation
3	Office Bearers	About Us
4	Kathakali Mela	Main navigation
5	Upcoming Events	Kathakali Mela
6	Awards	Main navigation
7	Awards Gallery	Awards
8	Gallery	Main navigation
9	Kathakali Gallery	Gallery

No.	Page	Proposed Parent
10	Media Coverage	Gallery
11	Institutions	Main navigation
12	Koothambalam	Institutions
13	Natyabharathi Kathakali Centre	Main navigation
14	Natyabharathi Classical Library	Main navigation
15	Kathakali Troupe	Main navigation
16	Contact Us	Main navigation

2.1 Sitemap Requirements

- Review the proposed pages and their hierarchy against the actual content and organizational structure.
- Determine whether related pages should remain separate or be grouped under parent pages.
- Identify any essential existing content missing from the proposed sitemap.
- Define the primary navigation, submenus, and footer navigation.
- Ensure visitors can reach important information without unnecessary navigation.
- Consider English and Malayalam content when defining page structures and navigation labels.

The proposed sitemap is not a final approved structure. The final page list and hierarchy should reflect the confirmed requirements.

3. Page-Level Business Requirements

3.1 Home

The homepage must introduce Kathakali Gramam Ayroor and provide visitors with access to the website's key information.

Content considerations include:

- Main hero section communicating the organization's identity.
- Introduction to the organization.
- Key cultural activities and highlights.

- Selected event and award highlights.
- YouTube Live Showcase.
- Selected gallery or media highlights.
- Links to important website pages.
- Footer with relevant navigation and contact information.

The final layout, content order, and visual treatment will be determined during sitemap and design planning.

3.2 About Us

Present the organization's history, background, objectives, and cultural contribution using approved content.

Provide access to the Office Bearers page.

3.3 Office Bearers

Present the organization's office bearers using approved information.

Relevant content may include names, designations, photographs, and biographies, depending on the information available and agreed requirements.

3.4 Kathakali Mela

Present information about Kathakali Mela, including its background, activities, photographs, and other relevant content.

Provide access to Upcoming Events.

3.5 Upcoming Events

Present relevant information about upcoming events.

Potential content fields include event name, date, time, venue, description, and associated photographs. The final information requirements should be confirmed based on how the organization communicates event details.

3.6 Awards

Present awards information in two distinct sections:

Awards Given in Previous Years

- Historical award information.

- Award year and award name.
- Recipient details.
- Relevant photographs, where available.

This Year's Awards

- Current award-year information.
- Award categories and recipients, where applicable.
- Relevant photographs and supporting information.

The current award year and the information available for each section must be confirmed.

The page must also provide access to the Awards Gallery.

3.7 Awards Gallery

Showcase photographs related to awards, award ceremonies, recipients, and other relevant occasions.

Images must be presented in a clear, responsive layout without unintended distortion.

3.8 Gallery

Provide an overview of the organization's visual content and access to the Kathakali Gallery and Media Coverage sections.

3.9 Kathakali Gallery

Showcase approved Kathakali photographs in a visually clear and responsive gallery.

Image presentation must preserve appropriate proportions and provide a consistent browsing experience.

3.10 Media Coverage

Present relevant media coverage, such as newspaper articles, publication references, article images, and external links, where available and approved.

3.11 Institutions

Introduce the institutions associated with Kathakali Gramam Ayroor and provide access to the Koothambalam page.

3.12 Koothambalam

Present information about Koothambalam, including its purpose, cultural significance, and relevant photographs supplied or approved by the organization.

3.13 Natyabharathi Kathakali Centre

Present information about the centre, its activities, and its role in Kathakali and cultural education, based on approved content.

3.14 Natyabharathi Classical Library

Present information about the library, its purpose, collections, and relevant activities where the necessary information is available.

3.15 Kathakali Troupe

Introduce the Kathakali troupe and present approved information about its activities, performances, members, and relevant photographs.

3.16 Contact Us

Provide visitors with the organization's contact information and an enquiry form.

The enquiry form should include:

- Appropriate input fields.
- Required-field validation.
- Clear validation and error messages.
- Confirmation feedback after successful submission.
- An agreed destination for submitted enquiries.

The final form fields, contact details, and enquiry recipient must be confirmed.

4. YouTube Live Showcase

The homepage must include a dedicated area for showcasing the organization's YouTube content.

Requirements:

- Display the approved YouTube live stream, channel, or video.
- Adapt the player to mobile, tablet, and desktop layouts.
- Provide a suitable fallback when a live stream is unavailable.
- Avoid autoplay with sound.
- Respect YouTube embedding restrictions and browser behavior.

The exact YouTube source and expected behavior when the stream is offline must be confirmed.

5. Language Requirements

5.1 Supported Languages

The website must support:

- English (`en`)
- Malayalam (`ml`)

Visitors must be able to switch between languages through a clearly identifiable language selector.

5.2 Content Coverage

Both language versions should cover all applicable website content, including:

- Navigation and menus.
- Page headings and descriptions.
- Buttons and links.
- Event and award information.
- Gallery captions and media descriptions.
- Contact information and form messages.
- Footer content.
- Relevant page titles and metadata.

The English and Malayalam versions should provide equivalent content coverage.

5.3 Malayalam Typography

- Use a readable Malayalam-compatible font that suits the approved design.
- Support Unicode Malayalam text and UTF-8 encoding.
- Ensure characters, conjuncts, and vowel signs render correctly.
- Prevent text clipping, overlapping, and unintended line breaks.
- Account for differences in text length across both languages.
- Verify navigation, forms, headings, and content on mobile and desktop.

The organization must provide or approve Malayalam translations and terminology.

6. UI/UX and Visual Design Requirements

6.1 Visual Direction

The design should reflect Kathakali Gramam Ayroor's cultural identity while providing a modern and intuitive browsing experience.

The visual direction should balance:

- Cultural authenticity.
- Clear content hierarchy.
- Readable typography.
- Appropriate use of imagery.
- Consistent colors and spacing.
- Intuitive navigation.
- Modern presentation across all pages.

The final visual direction should be established through Figma design work based on the confirmed requirements and sitemap.

6.2 Figma Design Coverage

The design should account for all agreed pages and shared components, including:

- Homepage and hero section.
- Header and navigation.
- Footer.
- Page headings and content sections.
- Awards and award-year sections.
- Galleries and media coverage.
- YouTube Live Showcase.
- Contact form.
- Language selector.
- Mobile navigation.
- English and Malayalam layouts.
- Responsive behavior across screen sizes.

The current Figma design is not approved and should not be treated as the final design reference. The designs must reflect the requirements established for this project.

6.3 Animations and Interactions

The website should include subtle, purposeful animations that enhance the experience without distracting visitors.

Suitable examples include:

- Smooth transitions for navigation and dropdown menus.
- Subtle hover feedback for links and buttons.
- Gentle reveal effects for selected content sections.
- Smooth interactions for galleries where appropriate.

Animations must not interfere with readability, accessibility, page performance, or mobile usability. Reduced-motion preferences must be respected.

7. Responsive Design Requirements

The website must support:

- Small and large mobile screens.
- Tablets in portrait and landscape orientations.
- Laptops.
- Standard desktop monitors.
- Wide desktop screens.

Requirements include:

- No unintended horizontal scrolling.
- Readable typography and consistent spacing.
- Appropriate image scaling and cropping.
- Responsive navigation.
- Touch-friendly interactive elements.
- Responsive galleries and embedded YouTube content.
- Correct wrapping of Malayalam text.
- Consistent presentation across different viewport sizes.

8. Shared Components and Navigation

The following elements should maintain consistent styling and behavior throughout the website:

- Header and primary navigation.
- Dropdown menus and mobile navigation.
- Footer and footer links.
- Language selector.
- Buttons and links.
- Reusable page headings and content sections.
- Gallery layouts.
- Contact form controls.
- YouTube Showcase area.

Interactive elements must provide clear feedback and support appropriate keyboard and touch interactions.

9. Technical, Accessibility, and Performance Requirements

9.1 Technical Requirements

- Use semantic HTML and maintainable CSS and JavaScript.
- Support current major browsers on desktop and mobile.
- Provide appropriate page titles and metadata.
- Ensure internal links and navigation work correctly.
- Avoid broken images, missing assets, and unintended layout shifts.
- Implement appropriate form validation.
- Protect sensitive configuration values and credentials.
- Maintain consistent behavior across supported languages and devices.

9.2 Accessibility

- Provide meaningful alternative text for informative images.
- Maintain sufficient text contrast.
- Support keyboard navigation.
- Provide visible focus indicators.
- Use appropriate labels for form controls.
- Present validation errors clearly.
- Respect reduced-motion preferences.

9.3 Performance

- Optimize images and embedded media.
- Avoid unnecessary scripts and excessive animation.
- Minimize layout shifts.
- Maintain usable performance on mobile devices and typical internet connections.

10. Content and Asset Requirements

The following content and assets need to be collected, reviewed, or approved as applicable:

- Organization history and background.
- Office bearer details and photographs.
- Kathakali Mela information.
- Upcoming event information.
- Awards information for previous years and the current year.

- Awards Gallery photographs.
- Kathakali Gallery photographs.
- Media coverage references and images.
- Institutions and Koothambalam information.
- Natyabharathi Kathakali Centre content.
- Natyabharathi Classical Library content.
- Kathakali Troupe information and photographs.
- Contact details and enquiry recipient.
- Approved YouTube channel, stream, or video.
- Logo and brand assets.
- English and Malayalam content.

Existing website content should be reviewed before determining what can be reused, updated, replaced, or removed.

11. Requirements to Be Confirmed

The following items require clarification before the corresponding requirements can be considered finalized.

Item	Clarification Required
Sitemap	Confirm the proposed pages, hierarchy, and navigation.
Existing content	Identify which existing pages and content should be retained or revised.
Awards	Confirm available historical awards data and the current award year.
Events	Confirm what event information is available and how it should be presented.
YouTube	Confirm the channel, stream, or video to display and the expected offline behavior.
Languages	Confirm the availability and ownership of English and Malayalam translations.
Contact form	Confirm the required fields and enquiry recipient.
Images	Confirm which existing and new images are approved for use.

Item	Clarification Required
Content management	Confirm whether an administrative content-management interface is required.
Final design	Establish the new Figma design based on the agreed requirements.

Items in this section are clarification points, not assumptions about additional functionality.

12. Acceptance Criteria

The website requirements will be considered satisfied when:

- The agreed sitemap and page hierarchy are implemented.
- All agreed pages contain the required approved content.
- The Awards page clearly separates previous-years awards from the current year's awards.
- Awards Gallery, Kathakali Gallery, and Media Coverage are included as agreed.
- The homepage contains the YouTube Live Showcase.
- English and Malayalam content is accessible through the language selector.
- Malayalam typography and text rendering are correct.
- Navigation, internal links, and interactive elements work correctly.
- The Contact Us form validates submissions and provides appropriate feedback.
- The website is responsive across the required screen sizes.
- The implemented visual design matches the final approved Figma designs.
- Animations are subtle and do not compromise accessibility or performance.
- No critical defects, broken links, missing assets, or major visual inconsistencies remain.
